HOLY CROSS CEMETERY GUIDELINES

Holy Cross Cemetery is owned and operated by Holy Cross Catholic Church of East Bernard, Texas. Holy Cross maintains the cemetery grounds at no cost to plot certificate holders. This includes mowing, trimming, landscaping and any other maintenance deemed necessary as long as there are funds available to do so. Families of deceased loved ones are expected to also maintain their gravesites by removing seasonal flowers and keeping decorations to a minimum. Gravesites enclosed by borders must be maintained by families forever.

Rules and regulations are incorporated in your contract of right to burial. They are designed to assist Holy Cross maintain a safe, orderly and clean cemetery as a permanent memorial to our loved ones and descendants trusted to our care until the end of time. You can help the Church achieve this obligation by observing the following policies governing the operation of the cemetery:

Sale of Cemetery Plots:

The cemetery administrator will direct the selling and sequencing of cemetery plots. This is done with maintenance and accessibility in mind. The administrator will go over rules and regulations with certificate holders and help answer any concerns or questions.

Opening and Closing of Graves:

Holy Cross contracts with a grave digging service to open and close all graves and mausoleum crypts in the cemetery. The cemetery administrator will assist families in their time of need by making arrangements with the digging service to open and close graves and mausoleum crypts. At the current time the fee for opening and closing is collected by the funeral director conducting the funeral service.

All graves in the newly opened Ruppert Section must be lined with a container (or vault). A container (or vault) provides stability for graves, reduces sinkage and allows a better base for heavy memorials.

Monuments, Memorials, Borders and Ledgers:

The cemetery administrator must be consulted before ordering grave markers or memorials. The administrator will supply grave dimensions for memorial purposes. Please make sure your monument company knows that they must notify the church before memorials are placed. This will ensure that the monument company has the right specifications and directions in our many cemetery sections.

Memorials and monuments taller than 36" are not allowed. Granite ledgers must be the appropriate length for grave dimensions and may not extend out into the walkway. Monuments, memorials, borders and ledgers may not extend further than plot dimensions.

Anyone doing concrete work/repairs, pouring borders or setting memorials must first get permission and approval from the cemetery.

Concrete borders may be poured with the understanding Holy Cross Cemetery nor the digging service is responsible for damage done while digging within the enclosed grave space. Borders must not overlap the grave dimensions and must allow ample room for opening and closing. Borders may not have a thick cement covering that must be broken through to open a grave. If borders are erected around a gravesite, the family of the deceased is solely responsible for the care and maintenance of the enclosed gravesite.

All monuments in the newly opened Ruppert Section must be placed on the northern end of the grave plot, facing in towards the altar in the center of the cemetery.

Mausoleum Spaces and Cremated Remains Niches:

The cemetery administrator will direct the selling and sequencing of mausoleum spaces and cremated remains niches. The representative will go over instructions on mausoleum care and address any questions or concerns.

Engraving on all mausoleums owned by Holy Cross Cemetery must be done through the cemetery administrator. This is to insure lettering is uniform in appearance and according to the rules of our cemetery.

A flower vase **OR** perpetual light may be mounted in the lower right hand corner of the crypt only. Engraving should be off-center slightly to the left to allow room for the vase or perpetual light. Pictures and small military plates are allowed to be attached to crypts by monument companies.
